

Dear Sirs

You will be welcome to the **Cast Nylon Open Days** next **12, 14, 17 November** at the **Persico S.p.A. facilities in Bergamo – Italy**

We manufactured and we are presently testing an **Automatic PA6 Anionic Casting Equipment with Tools**. We will be glad to show you what we did and to discuss with you about any possible future project.

Persico S.p.A. manufactures approx 40 MEuro Tools and 20 MEuro Equipment per year. Our main facilities are in Bergamo Italy. **Enclosed few details of the Turn Key System** we will show you. Feel free to contact myself in order to know any details and to confirm your visit.

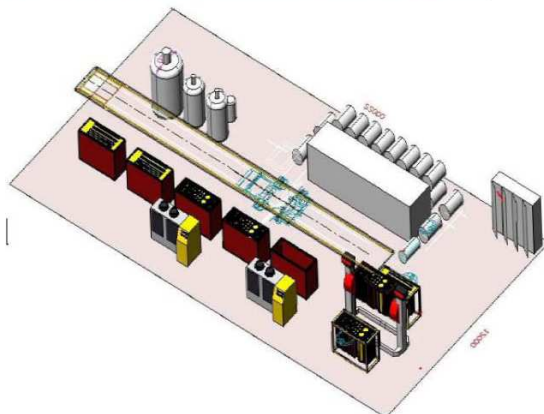

Thanks and hope to see you soon.

**Carlo Ortenzi**

 **PA6 Nylon anionic casting open days 12, 14, 17 November 2008**

***We produce Equipment and Tools. You will be welcome to visit our facilities and discuss with us about your next projects for cast nylon and other.***

**WHO**

Persico is an Engineering Company mainly focused on Automotive, Rotomoulding and Nautical. We design and manufacture Equipment and *Tools for worldwide Customers.*

**WHAT**

We just manufactured and we are presently testing an Anionic Casting Automatic Equipment at our facilities

in Bergamo Italy. Outstanding features of the plant:

Up to 6 tons per day production capacity

Rods (pure casting !) 20 - 800 mm diameter 0,4 - 800 kg

Sheets (one variable thickness tool !) 10 - 300 mm thick 16 - 500 kg

Pipes (full automatic machine) 80 - 600 mm diameter 1,5 - 350 kg

Full automatic production (2 operators)

Dosing unit 5 components, 2 mixheads, 1 robot

**WHY**

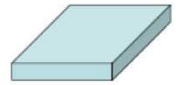

*To see an automatic, innovative turn key system including tools.*

*To learn a bit more about Persico SpA.*

**WHERE**

*We are based in Nembro (Bergamo) - Italy. Close to Milano Airports: 10 min. from Orio al Serio low cost*

*Airport, 60 min. from Milano Linate Airport, 90 min. from Milano Malpensa Airports*
